ROT PUNKT KÜCHEN

possibilities *made for* LIVING.

EN

possibilities *made for* LIVING.

A Rotpunkt kitchen is more than just a place where you cook – it is a place where you come together, enjoy and live.

Every surface, every line, every detail is an invitation to express your personal lifestyle. We combine design with emotion, craftsmanship with innovation, and sustainability with genuine comfort. This combination results in kitchens that are as individual as you and your life – full of possibilities that inspire and support you, helping you feel right at home every day.

IT BEGAN WITH A

passion to **COOK UP** *something new.*

Our company got off to a simple start in 1930 manufacturing crates – today, we are a successful international manufacturer of high-quality kitchen and home furnishings. Our kitchens, dressing rooms and utility rooms stand for diversity, premium quality, durability and sustainability – all "Made in Germany".

In 1950, we launched our kitchen production with a classic china cabinet. We have been passionate about kitchens ever since. This is a passion that has only grown over time – and will continue to grow in the future.

living.

For more than 70 years, we at Rotpunkt have been **designing furniture for life** – inspired by the needs of our customers, shaped by their everyday lives, made for today, tomorrow and all the moments in between.

Furniture designs – born from real life.

Since we began producing furniture, we have been focused on one thing: the lives of our customers. They are the heartbeat that drives us forward. We listen, focus on what's really important, and transform their needs into ideas that make everyday life more beautiful.

Every Rotpunkt kitchen reflects this philosophy: a place where people meet, stories are created and memories grow. For us, "living" means supporting you and your lifestyle – and always looking ahead to the future.

possibilities.

Our passion for life gives rise to diversity:
countless shapes, colours and ideas
that grow, change and give our customers
new horizons of freedom.

Class VM Light Bronze

Zerox SY VER Scandinavian Fjell Oak

A world of possibilities – for today and tomorrow.

Our vision to enrich the lives of our customers gives rise to a world full of possibilities. Every new idea, every detail, every combination of materials opens up another new door. We started off small, but now we offer a virtually endless interplay of shapes, colours and functions – one that continues to grow day by day.

At Rotpunkt, we see "possibilities" as a promise: to inspire you, to give you freedom and to create spaces that suit you today – and will still be right for you tomorrow.

DESIGNED FOR YOU:

Our recipe *for your* DREAM KITCHEN!

Every dream kitchen starts with the right ingredients: a big helping of functionality, a dollop of clever ideas and a generous pinch of timeless aesthetics. We combine it all to create furnishings that are more than just a work surface or a storage space – they are the heart of your home. This is where you cook, laugh, celebrate and live.

Our product range offers you everything you need to make your kitchen as unique as it is personal: from designs with smart details inside to fronts and bodies in more than 40 colours to free-floating "cubes". You choose what you need to create a space that perfectly combines individuality and comfort.

A design
that has it all.

Zerox VER SY Loft Nordic Oak

Memory FL Zero Clay Dark

It's great that you don't just look at the outside – after all, true beauty comes from within. The heart of a Rotpunkt kitchen offers you countless design options. How about, for example, pull-outs, drawers and accessories in cosy warm wood or elegant zirconium?

Feel
free.

Breaking with traditional kitchen conventions and creating designs with space to breathe – that is Rotpunkt's philosophy. Our free-floating units, called "Cubes", create space, look effortless, and lend your home a minimalist chic. All in all, over 40 body colours are available to match your style.

Zerox FX Orio Cortez 5003

A velvety feel.

A LOOK OF PURE ELEGANCE.

Touch, discover, and fall in love: FENIX® fronts offer you a velvety feel, deep matt elegance and expressive colours. Fingerprints? They just disappear. Scratches? Removed in a flash. Discover your dream colour from 27 shades and create your perfect combination using the configurator. Simply scan the QR code.

Just a pinch of

VARIETY FOR every kitchen.

Rotpunkt brings variety and taste to every facet of your kitchen – with almost limitless possibilities to make your dreams a reality. Discover our clever lighting solutions and perfectly set the scene for any ambiance.

Explore front options: handle-free or with handles, just as you like. Use glass elements as elegant highlights. Find your ideal working height and let niche solutions step out of the shadows and into the spotlight. The result is a kitchen that is as unique as your life – one that inspires you every single day.

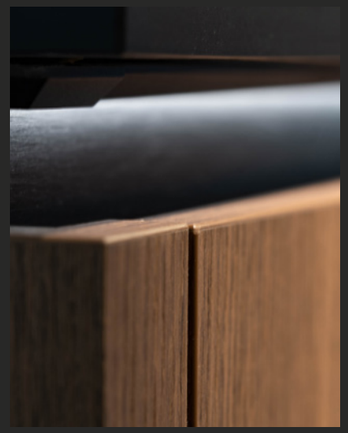
Let there be light?

Give it a try!

The way to a man's heart may be through his stomach – but we also eat with our eyes. That is why we offer just the right lighting in our product portfolio. Whether LED spotlights, elegant linear lighting or smart, indirect lighting effects – our lighting solutions create the perfect atmosphere in your kitchen.

With our lighting configurator, you can test out how different lighting settings and colours will look during the day and at night. Simply scan the QR code and get started.

SEE YOUR KITCHEN
IN A WHOLE
new light.



Zerox KQ Textured Carbon Stone

Let your kitchen shine, or bathe it in a soft glow. Bring light into the darkness, or create effective lighting accents. With our lighting solutions, you can add highlights and find the right lighting no matter your taste. Select your ideal lighting package – all options are compatible with smart home systems.

Whatever you choose:
a crystal clear decision.

Memory RI Beach Grey

Just the right size. YOUR SIZE.

We think big. And small. And everything in between. No matter the height, it's always just right. Whether you choose our standard height of 78 cm, 91 cm for extra comfort or go for the happy medium with our 84.5 cm intermediate option: we offer the perfect working height for you. That makes your everyday kitchen tasks more convenient and more ergonomic.

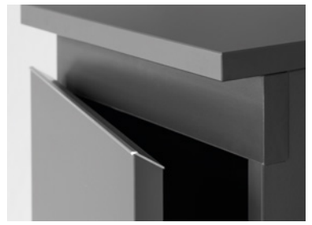
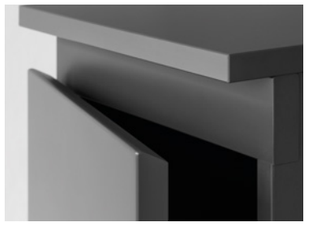
Convincing without a handle – *whether pressed gently or guided discreetly.*

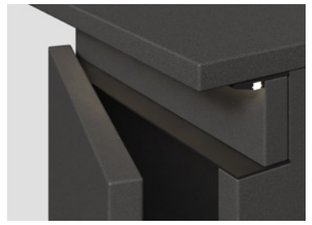
Kitchens without traditional handles? That's a breeze for us. Choose from our handle-free options – with elegantly integrated recessed handles or high-quality push-to-open mechanisms – and experience the ultimate in comfort.

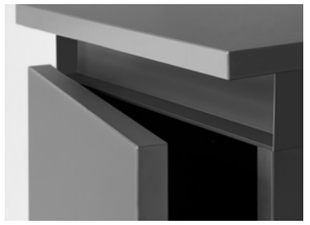
Zerox FM Olive Green

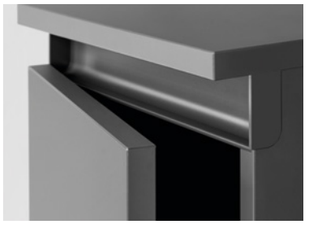
A gentle push or a subtle touch is all it takes, and doors and drawers follow you as if by magic. Handle-free design combines timeless beauty with minimalist elegance. See for yourself.











HERE, STORAGE SPACE BECOMES **wall decoration.**

Much more than just everyday helpers or gap fillers: our flexible WALL SOLUTIONS niche system brings both order and style to your walls. From knife blocks and glass shelves to tablet holders – here, storage becomes an eye-catcher and functionality becomes a style element.

YOUR NEW KITCHEN?

From only *the best* INGREDIENTS!

Just as with any good recipe, the right mix is important when preparing your kitchen: four sophisticated wood lines – from elegant and smooth to rustic and textured – add character. Over 55,000 possible combinations are available to spice up the look of your kitchen.

Real wood fronts and drawer boxes made of wood create a warm atmosphere, while sustainable materials and our greenline BioBoard Gen2 ensure that everything still looks fresh tomorrow. The result: a kitchen that's clearly created with style, spirit, and responsibility.

Four lines, one feeling:
simply real wood.

Each type of wood has its own unique character.
That is why we focus on four individual lines:

Classic Line – finely textured, without knots.
Nordic Line – elegant veneer with decorative grain, brushed and without knots.
Forest Line – with visible wood and knot texture.
Oak Line – with deep, vibrant textures.
Which wood option do you prefer?

CLASSIC LINE NORDIC LINE FOREST LINE OAK LINE

We love bringing beautiful, natural wood into kitchen interiors – for example, with wooden drawer boxes. Wood helps create a healthy indoor climate and a naturally cosy atmosphere.

Natural in appearance.
Precision manufacturing.

By real wood, we mean our fronts with a selection of high-quality veneers. One particularly striking example is our RAW: a veneer front made of oak with a solid beam look applied to a lightweight chipboard panel. It is handcrafted, brushed or sandblasted for a clearly visible wood texture. Each one is truly unique.

Zerox SY VER Loft Smoky Oak

Zerox KQ Textured Grey Stone

Get just the RIGHT COMBINATION.

Over 55,000 possible combinations are available for wooden fronts and bodies alone – all part of our commitment to offering world-class variety. Would you like a sample? Take a look at a small selection of colours here. You can find the full range of colours on our website.

What do all of our
products have in common?
Style and responsibility.

Sustainability is embedded in every detail of our work – and above all in the materials we use. Certified, durable, climate-friendly – these are the factors that shape our material choices.

And they make Rotpunkt the first choice for anyone who loves good design and wants to live conscientiously. With a Rotpunkt-kitchen, you are investing in quality – and in the future.

MADE FOR TODAY.
Designed for tomorrow.

greenline
BioBoard Gen2

Unlike conventional chipboard, our greenline BioBoard Gen2 consists of up to 90% recycled wood. This means it acts as a natural CO_2 reservoir, which is good for the climate and good for all of us. It also complies with the world's most stringent F4Star standard for formaldehyde emissions, resulting in around 50% lower emissions than conventional boards. It makes choosing your kitchen an easy way to help protect the climate.

Cradle to cradle is an approach to a consistent and coherent circular economy and the use of recycled materials.

FSC® trademarks on wood and wooden products stand for transparency and credibility worldwide. They ensure that people and nature are treated fairly and responsibly.

The Nordic Swan, known in Scandinavia simply as "The Swan", is a Type I environmental label (ISO 14024), that indicates how environmentally-friendly products are in comparison to competing products, according to an independent third party. It is an eco-label awarded by the Nordic Council of Ministers.

The Blue Angel is an environmental label for highly environmentally-friendly products and services. In the case of chipboard, formaldehyde emissions are an important criterion used when awarding the seal. Before receiving the award, the chipboard is certified by the independent RAL Institute.

The California Air Resources Board (CARB) is a governmental commission of the state of California in the United States. The advisory body, which has been in existence since 1967, is internationally renowned for its particularly stringent legislative proposals on air pollution control.
