About us...

Established in 1989, Abacus is one of the UK's leading manufacturers and distributors of quality bathroom and wetroom products.

OUR PRODUCTS

Developed alongside some of the world's most prestigious bathroom brands, our comprehensive product range offers stunning contemporary designs, twinned with market-leading guarantees, which will suit all bathroom needs.

OUR PHILOSOPHY

Our approach to completing a bathroom through both product and design innovations makes us one of the only companies to supply every product required in a bathroom from conception to completion.

Our Brands

LAFENZA
TILE WITH STYLE

More than 145 years of beauty, creativity and excellent quality. A priceless heritage accumulated over the years on this unique journey, with the utmost respect for workplaces and the people who labour in them every day, driven by a passion and desire for progress.

MADE IN ITALY

Every space reflects the identity of those who create, love and live it. Every environment has a name. The name of the person who first imagined and then created it.

WE TILE. YOU STYLE.

Our Brands

From Sardinia, with passion.

For over 22 years, Ceramica Mediterranea has created authentic, versatile, and durable ceramic collections inspired by the island's land and culture. As the only Italian producer of porcelain stoneware made entirely from Sardinian raw materials, we embrace a truly local and sustainable approach. Our short supply chain, low-impact production, and commitment to local expertise reflect our vision: to share Sardinia's heritage with the world — responsibly and beautifully.

CERAMICA EURO.

Ceramica Euro, beautiful tiles 100% made in Italy. A productive idea born from the desire to transform every environment into a living design. Large technological investments, constant development of new collections, infinite passion and attention to every detail are the ingredients to produce every day porcelain tiles of great aesthetic character, great strength and durability, which makes Ceramica Euro a point of reference.

Tiling design tips

Whether you are a tiling novice or a seasoned pro, our in-house designers have shared some best practices to help make your dream project become a reality...

#1 It's all in the layout

When designing your dream bathroom, it's not just about the tiles you choose—it's also about how you lay them out. Larger format tiles, like our La Faenza Vis range, work best in a clean, horizontal grid or stack bond pattern. This layout creates a sleek, modern look, makes smaller spaces feel larger, and reduces grout lines and tile cuts—saving both time and money.

Check out our handy tile pattern layout suggestions for added inspiration.

Suggested Tile Pattern Layouts

#2 Small Space, Big Effect

Don't be afraid to use dark colours in smaller spaces. Of course lighter colours make a room feel bigger and brighter, but that doesn't mean you should shy away from using darker colours in smaller spaces. A dark tile can add a sense of depth to a room as the parameters of the tile become less clear and, much like a lighter tile, can make a space feel bigger.

Top Tip: Tile size shouldn't be determined by bathroom size. A small bathroom can actually benefit from a large tile, with fewer grout lines the walls and floor appear less cluttered and the room visually expanded.

#3 The best in test

Wetrooms are beautiful, luxurious and practical.

However due to the nature of this type of environment it is always wise to select a tile for your wet room with the appropriate slip resistance for your layout.

That is why we have identified the “R” and “PTV” ratings for each range.

The “R” rating system indicates that the tile has a slip resistant finish. The higher the rating, the greater the level of slip resistance.

The “PTV” (Pendulum Test Value) rating is designed to indicate the level of slip resistance a tile range provides when they are wet or dry. The higher the rating, the greater the slip resistance.

Please note, R ratings and PTV ratings are only assigned to tiles that are designed to provide a level of grip and slip resistance.

Top Tip: Look out for our slip resistance icon to identify the ‘R’ and ‘PTV’ ratings.

Slip Resistance
Technology

#4 The Grout Effect

Complementary or contrasting, the grout colour you select will affect the final look of your tiles.

For an interior design that stands the test of time, selecting complementing grout colours when choosing stone effect tiles in the bathroom is a great choice. The beautiful Vis Almond tiles, work very well with the Rocatex beige grout, making the grout lines virtually disappear.

Top Tip: A darker grout colour can hide stains and dirt.

#5 Colour is the new grey

Gone are the days of sterile white tiles and monotone walls. Today, the bathroom is a canvas—an intimate space where colour brings personality, warmth, and depth. Whether it's calming earth tones, bold accents, or playful contrasts, the right palette transforms function into feeling.

There are no rules when it comes to choosing colours. If you're unsure, then take it slow. Rather than tiling an entire wall, start with a coloured feature wall or add a "pop" of colour with our metallic finished shower niches from our Elements Wetrooms range.

Top Tip: Complement your tiles with our range of beautiful Colour Your Bathroom brassware and accessories, available in 5 stunning colour finishes including Matt Black and Brushed Brass.

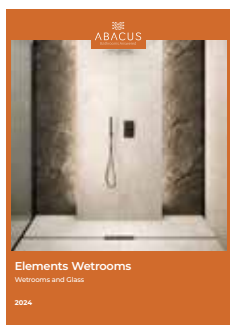

See www.abacus-bathrooms.co.uk for more information.

#6 Preparation is key

Before tiling any walls or floors we recommend using our Abacus Elements Building Board to create a comprehensive waterproofing and insulation system for any bathroom, wet room or steam room.

Abacus Elements Building Board is designed to be used on walls and floors to deliver the ultimate foundation for 'behind the tiles' giving total peace of mind that your bathroom is safeguarded from leaks whilst ensuring all surfaces are flat and smooth ready for your bathroom installation.

Elements Building Board is lightweight yet durable for ease of installation and ensures your bathroom stands the test of time whilst reducing the occurrence of mould and mildew giving you a more hygienic space.

For further information visit www.abacus-bathrooms.co.uk

Important tips for tiling your bathroom

- **MEASURE THE SPACE ACCURATELY**

You will need to calculate the square metre area that you are tiling– the easiest way to do this is with our simple-to-use calculator found on our website:
www.abacus-bathrooms.co.uk

When calculating the space it is important to make sure you add at least 10% extra for waste and cuts. You don't want to be half way through a project and run out.

- **SELECT YOUR PERFECT TILES**

Our products are grouped by style, making it easy for you to find the perfect option for your project, from stunning marble finishes to contemporary concrete effect. There really is a style to suit your space.

- **THINK ABOUT YOUR SPACE**

When selecting a tile range, make sure it is suitable for your space. Is the tile suitable for both wall and floor use? Does it have a slip resistance that makes it suitable for wetrooms?

Look out for our features icons on each of our tile ranges to help you with selecting the right tiles for your project.

- **DECIDE ON YOUR LAYOUT**

Before you start your tiling project, consider how you would like your tiles to be laid out.

- **COMPLETE THE LOOK**

To complete the look, consider integrating shower panels or slatwall panels. These add texture, contrast, and functionality, making your space feel more refined and cohesive. Together, thoughtful layout and smart surface choices elevate any bathroom design from standard to standout.

- **DON'T FORGET TO ORDER ADHESIVES AND GROUTS**

Grout colour is often forgotten when it comes to selecting tiles, but the grout colour you choose can dramatically change the look of a tile. We also have colour matching sealants available to help achieve a co-ordinated finish. See Page 66 for the full range.

- **SELECT YOUR TILE TRIMS**

Make the tile trims a design feature, by selecting a coloured metal trim that complements your brassware. See page 70 for the full range

Make sure the trim you select is suitable for your tile thickness. The icon  will show the tile thickness for each range.

VIS is a “premium” collection as it encompasses the best technology currently available for tile production. With a thickness of **only 6.5 mm**, this lightweight range is easy to install, even with the largest format option.

A NOBLE TOUCH

On the one hand, a clean and minimalist style, on the other, nuances of warm, enveloping tones of natural colours. Vis is a careful representation of stone surfaces and their colours. The ability to showcase the subtle pigments of light and shade of plaster and cement finishes whilst at the same time creating a pure neutral base of solid colour.

Aesthetica Aga

THE STUDY OF BEAUTY

In Aesthetica, the classic elegance of marble finds a new look that stands out by enhancing seemingly common reference models with unprecedented and highly innovative shades and graphics. Combining traditional white, beige, grey and black backgrounds with fascinating and surprising blasts of surface colour to create unusual, high impact effects.

Acoustic Panels

About Acoustic Panels

Designed to bring modern elegance, these panels combine sleek, linear aesthetics with quality sound absorption. Our Acoustic Panels add a contemporary architectural feature to walls and ceilings. With easy installation and a variety of colour options to choose from, they offer a versatile solution for transforming spaces where design and acoustics matter most.

SPECIFICATION AND FEATURES

- Wood panel backed with black breathable felt effect
- Panel trims available for a perfect finish
- Suitable for residential and commercial use
- Stylish & practical
- Modular tongue and groove design
- Quick & easy install
- Install with hybrid grab adhesive
- Lighting option available
- Available in packs in multiple colour options
- Bathroom ready but not for splash zone areas

EASY TO INSTALL

For a clean, drill-free setup, apply a strong construction adhesive or grab glue directly to the back of each panel. Press firmly onto the wall for a secure bond. This method is ideal for smooth, even surfaces.

Alternatively, install panels using appropriate screws through the acoustic felt into the wall.

Cut panels to size across the width using a fine-toothed handsaw.

EASY TO MAINTAIN

The ultimate “fit and forget” home improvement product.

- Hygienic, wipe-clean surface
- Mould and moisture resistant
- Excellent insulation and sound proofing

Waterproof Slatwall

About Slatwall

Elevate interior spaces with the refined simplicity of slatwall panelling—designed to turn any wall into a striking feature. With clean lines and contemporary finishes, slatwall brings texture, depth, and a sense of considered design to both modern and classic spaces. Whether you're creating a bold statement or a subtle backdrop, slatwall adds architectural interest that transforms the ordinary into something truly distinctive.

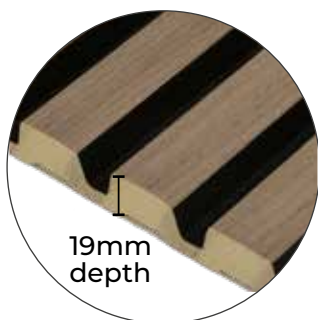

DIMENSIONS AND TECHNICAL DETAILS

Panel (mm)	W170 x H2400 x D19
Slat (mm)	W27 x D13
Panels per pack	3
Finish	Premium waterproof wood-on-wood effect
Composition	90% recycled polystyrene, 10% virgin materials
Pack size (mm)	W500 x H2400

SPECIFICATION AND FEATURES

- Oak wood and walnut effect
- 100% waterproof
- Lighting options available
- End trims available for a perfect finish
- Suitable for residential and commercial use
- Stylish & practical
- Modular tongue and groove design
- Quick & easy install
- Install with hybrid grab adhesive
- Made from recyclable materials

EASY TO INSTALL

Very simple to install either by bonding with grab adhesive or for ceiling installations we recommend mounting with screws through the panel and into your wall. Cut panels to size across the width using a fine-toothed handsaw.

Installation Tip

Our waterproof slatwall panels are suitable for use in bathroom environments, including shower areas. However, we do not recommend installation on walls where recessed fixtures such as wall-mounted shower valves or brassware accessories are fitted. These areas typically require precise cut-outs and a fully watertight seal, which may be difficult to achieve with slatwall panels.

WARM, NATURAL, AND STRIKINGLY STYLISH

Our Oak & Black Waterproof Slatwall Panels are a perfect blend of natural warmth and modern durability adding depth and texture to any interior. Easy to install and beautifully versatile, they offer a striking modern aesthetic to any bathroom, living space or feature wall.

M1 Series Shower Wall Panels

About M1 Series Panels

The clever alternative to tiling and perfect solution for an economical wall covering. M1 Panels are quick to install, easy to keep clean and are suitable for domestic and commercial applications.

#1 Decorative and Stylish

Our M1 Series Shower Wall Panels provide an interior decorative wall panelling system that is easy to install and simple to maintain. Suitable for walls in showers, bathrooms, kitchens, conservatories, extensions and utility rooms. The perfect choice for domestic and commercial installations.

Available in a wide range of designs and colours from classic marble to rustic oak - this comprehensive selection is sure to suit a wide range of design requirements.

#2 Easy to Fit

Designed to be ultra easy to fit, these tongue and groove panels simply click together using a small bead of sanitary silicone, creating a smooth watertight finish.

- The perfect alternative to tiling
- Easy to fit system, no specialist training needed
- No drying time or grouting – get the job done in one day
- Fix over existing surfaces including tiles
- Range of trims to give a professional finish
- Easy to handle and transport
- Easy to cut using a fine tooth handsaw

#3 Easy to Maintain

The ultimate “fit and forget” home improvement product.

- 100% waterproof honeycomb core
- No wood
- Hygienic, wipe-clean surface
- Mould resistant
- No grouting to discolour
- Excellent insulation and sound proofing

transform your bathroom
IN HOURS RATHER THAN DAYS

Contemporary Range

Sleek, modern, and effortlessly stylish - our Contemporary Shower Panels are the smart choice for today's bathrooms. Designed to deliver a clean, seamless look, they offer a practical alternative to tiles with no grout lines and minimal maintenance. Available in a range of on-trend finishes, from soft neutrals to bold textures, they're perfect for creating a striking feature wall or a full contemporary wet room.

Timeless Looks for Every Space

Planks

Our luxury planks range offers the authentic appearance of wood with the practicality of vinyl making them ideal for bathrooms. Extremely durable, waterproof and with built-in underlay, available in a wide range of shades to suit all installations.

Tiles

Our stunning tiles range is the perfect alternative to real stone and ceramic tiles and offers the look of a traditional tiled floor that is warm underfoot, waterproof, and easy to clean and maintain. Available in a range of sizes and designs to suit all installations.

Why Choose SPC Vinyl Flooring?

- Excellent fire retardant, unique construction, more rigid and stable
- Superior weather resistant, 100% waterproof
- High grade anti-abrasion, high-strength, damp-proof
- Superior anti-slipping, anti-mildew, and anti-bacterial
- Sound absorption, room noise can be effectively decreased
- Easy installation, low maintenance, less labour cost

Effortless Installation

- Click-fit-u no adhesives
- Integrated Underlay for ease of installation and extra comfort
- Install in hours
- Lay over existing floors - tiles, concrete
- Compatible with underfloor heating up to 27°C

Visit your local bathroom retailer

Visit our website www.abacus-bathrooms.co.uk and go to the store locator tab. Find our retailers by inputting your postcode. To make things easy for you we have divided these into 3 categories:

You can be assured of a first-class user experience with a platinum retailer. Expect multiple Abacus display areas together with trained bathroom experts proficient in our product ranges.

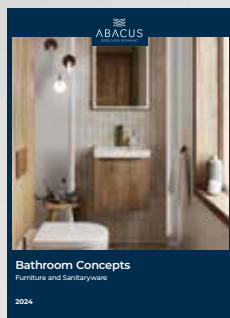

Our premium retailers offer an enhanced showroom experience with a varied range of Abacus display areas and trained bathroom experts.

These retailers have been installer trained in Elements Wet Room technology and have proven expertise. Get up close to the products with our 'Behind the tiles' display.

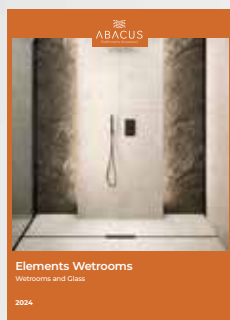

More bathroom inspiration from Abacus

Bathroom Concepts.

Developed alongside some of the world's most prestigious bathroom brands, our comprehensive product range offers stunning contemporary designs, twinned with market-leading guarantees, which will suit all bathroom needs.

Our approach to completing a bathroom through both product and design innovations makes us one of the only companies to supply every product required in a bathroom from conception to completion.

Elements Wetrooms.

Our design-led approach manufacturing means that our Abacus Elements Wetroom products combine the ultimate strength with the utmost peace of mind. Elements range offers the most comprehensive range of wetroom and waterproofing products currently available. Comprising a large collection of wetroom trays with multiple choices of size and drain styles,

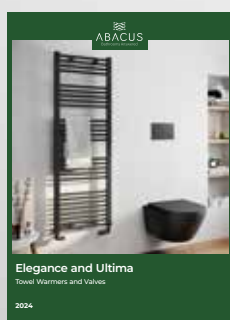

Elements also offers the complete solution from waterproofing bathroom walls and floors to wellness products and steam rooms, all backed with a 15-year guarantee.

Easi-Plan. Flushing & Support Systems.

Easi-plan is an ultra flexible range of concealed sanitaryware installation frames that allow the bathroom designer to design with flair and imagination with no need to compromise the installation quality.

- The hidden frames cover all aspects of sanitaryware and brassware installation including WC's, basins and bidets. They create a pre-wall fixing system that eliminates the need for unsightly pipe boxing and exposed pipes.
- Easi-plan has been designed specifically for the UK market and its innovative design and installation features make this the future of bathroom design.

Elegance Towel Warmers & Radiators.

An extended range of towel warmers and radiators which will enhance the appearance of any room. Available in various finishes including Matt White, Matt Black, Terra Matt and Anthracite.

Abacus Towel Warmers come in a variety of shapes and sizes offering something for everyone.

Colour Your Bathroom.

Make a contemporary designer statement in your bathroom with matching coloured brassware and accessories throughout. Bold, confident and chic styling makes for an ultra-coordinated look for the modern bathroom.

Available in matt black, brushed bronze, brushed nickel and chrome.

Perfectly colour matched components across all of the Ki, Plan and Iso ranges, including accessories and wetroom components.
