Home *of* Inspiring Bathrooms

hib. is the Home of Inspiring Bathrooms. A family-run British brand, we lead the way in mirrors, cabinets and modern bathroom design, combining thoughtful craftsmanship with design-led innovation. Since 1990, we've worked with retailers and customers to deliver intelligent solutions through products that bring understated elegance and lasting performance to real homes.

Join our community on social media.
Get inspired with the latest bathroom designs and trends, share your transformations and see the current bathroom innovations.

@hib_bathrooms @hibbathrooms @HiBLtd @hib-ltd

"We are a family-run, British brand bringing bathroom dreams to life."

Rob Ginsberg

Rob Ginsberg
CEO at hib.

In 1990, Warren Ginsberg MBE founded hib. from his home in London, selling mirrors and cabinets from his kitchen table. Today, the business has grown, but our philosophy remains the same: creating products that fit real homes and real lives.

Over the years, hib. has pioneered industry-first innovations, from steam-free mirrors and colour-temperature lighting to Bluetooth-integrated cabinets, combining intelligent technology with refined, enduring design.

Now led by Rob Ginsberg, we continue to blend creativity, and design-led innovation to deliver modern bathroom solutions. Through continued innovation, trusted retailer partnerships and a passion for exceptional design, hib. is committed to shaping the future of bathroom experiences, one beautifully crafted space at a time.

1. Vale
Mirror Ranges - p.42

Our Vale mirrors pair clean design with smart features, including hidden-illumination technology and colour temperature changing LED lighting.

Six for 2026

New to hib.

Six new additions for 2026, where thoughtful design and intelligent technology shape the future of the modern bathroom.

2. Spirit
Mirror Range - p.30

Crafted with purpose, our Spirit mirrors feature 2-pin and USB shaving sockets engineered to integrate seamlessly with the mirror's shape.

3. Flush Plates and Vella Cistern with Frame
Sanitaryware - p.202-205

Wall hung WC frames and flush plates are now available, and in seven finishes to ensure an option for every bathroom.

4. Dulson
Ceramic Basin - p.235

Introducing Dulson, the perfect pairing for Adorn furniture. With curved edges, this ceramic basin is sculpted elegance.

5. Radiance
Mirror Range - p.48

Our most versatile mirror collection to date, Radiance brings together the most shapes and sizes, with concealed LEDs, large heated pads and connectivity for dual-basin configurations.

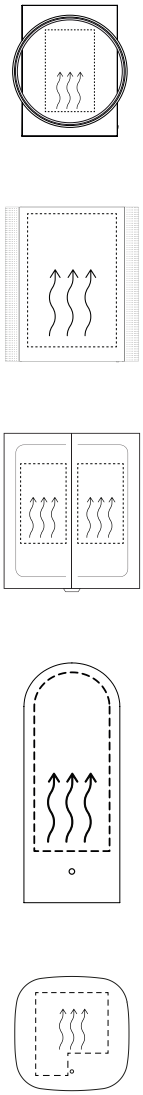

6. Vanquish 30
Cabinet - p.76

A tall recessed cabinet combining streamlined storage with integrated 2-pin, USB and USB-C charging.

Radiance 80x80 | Cool White

Heated area

Gentle, even warmth prevents condensation from forming.

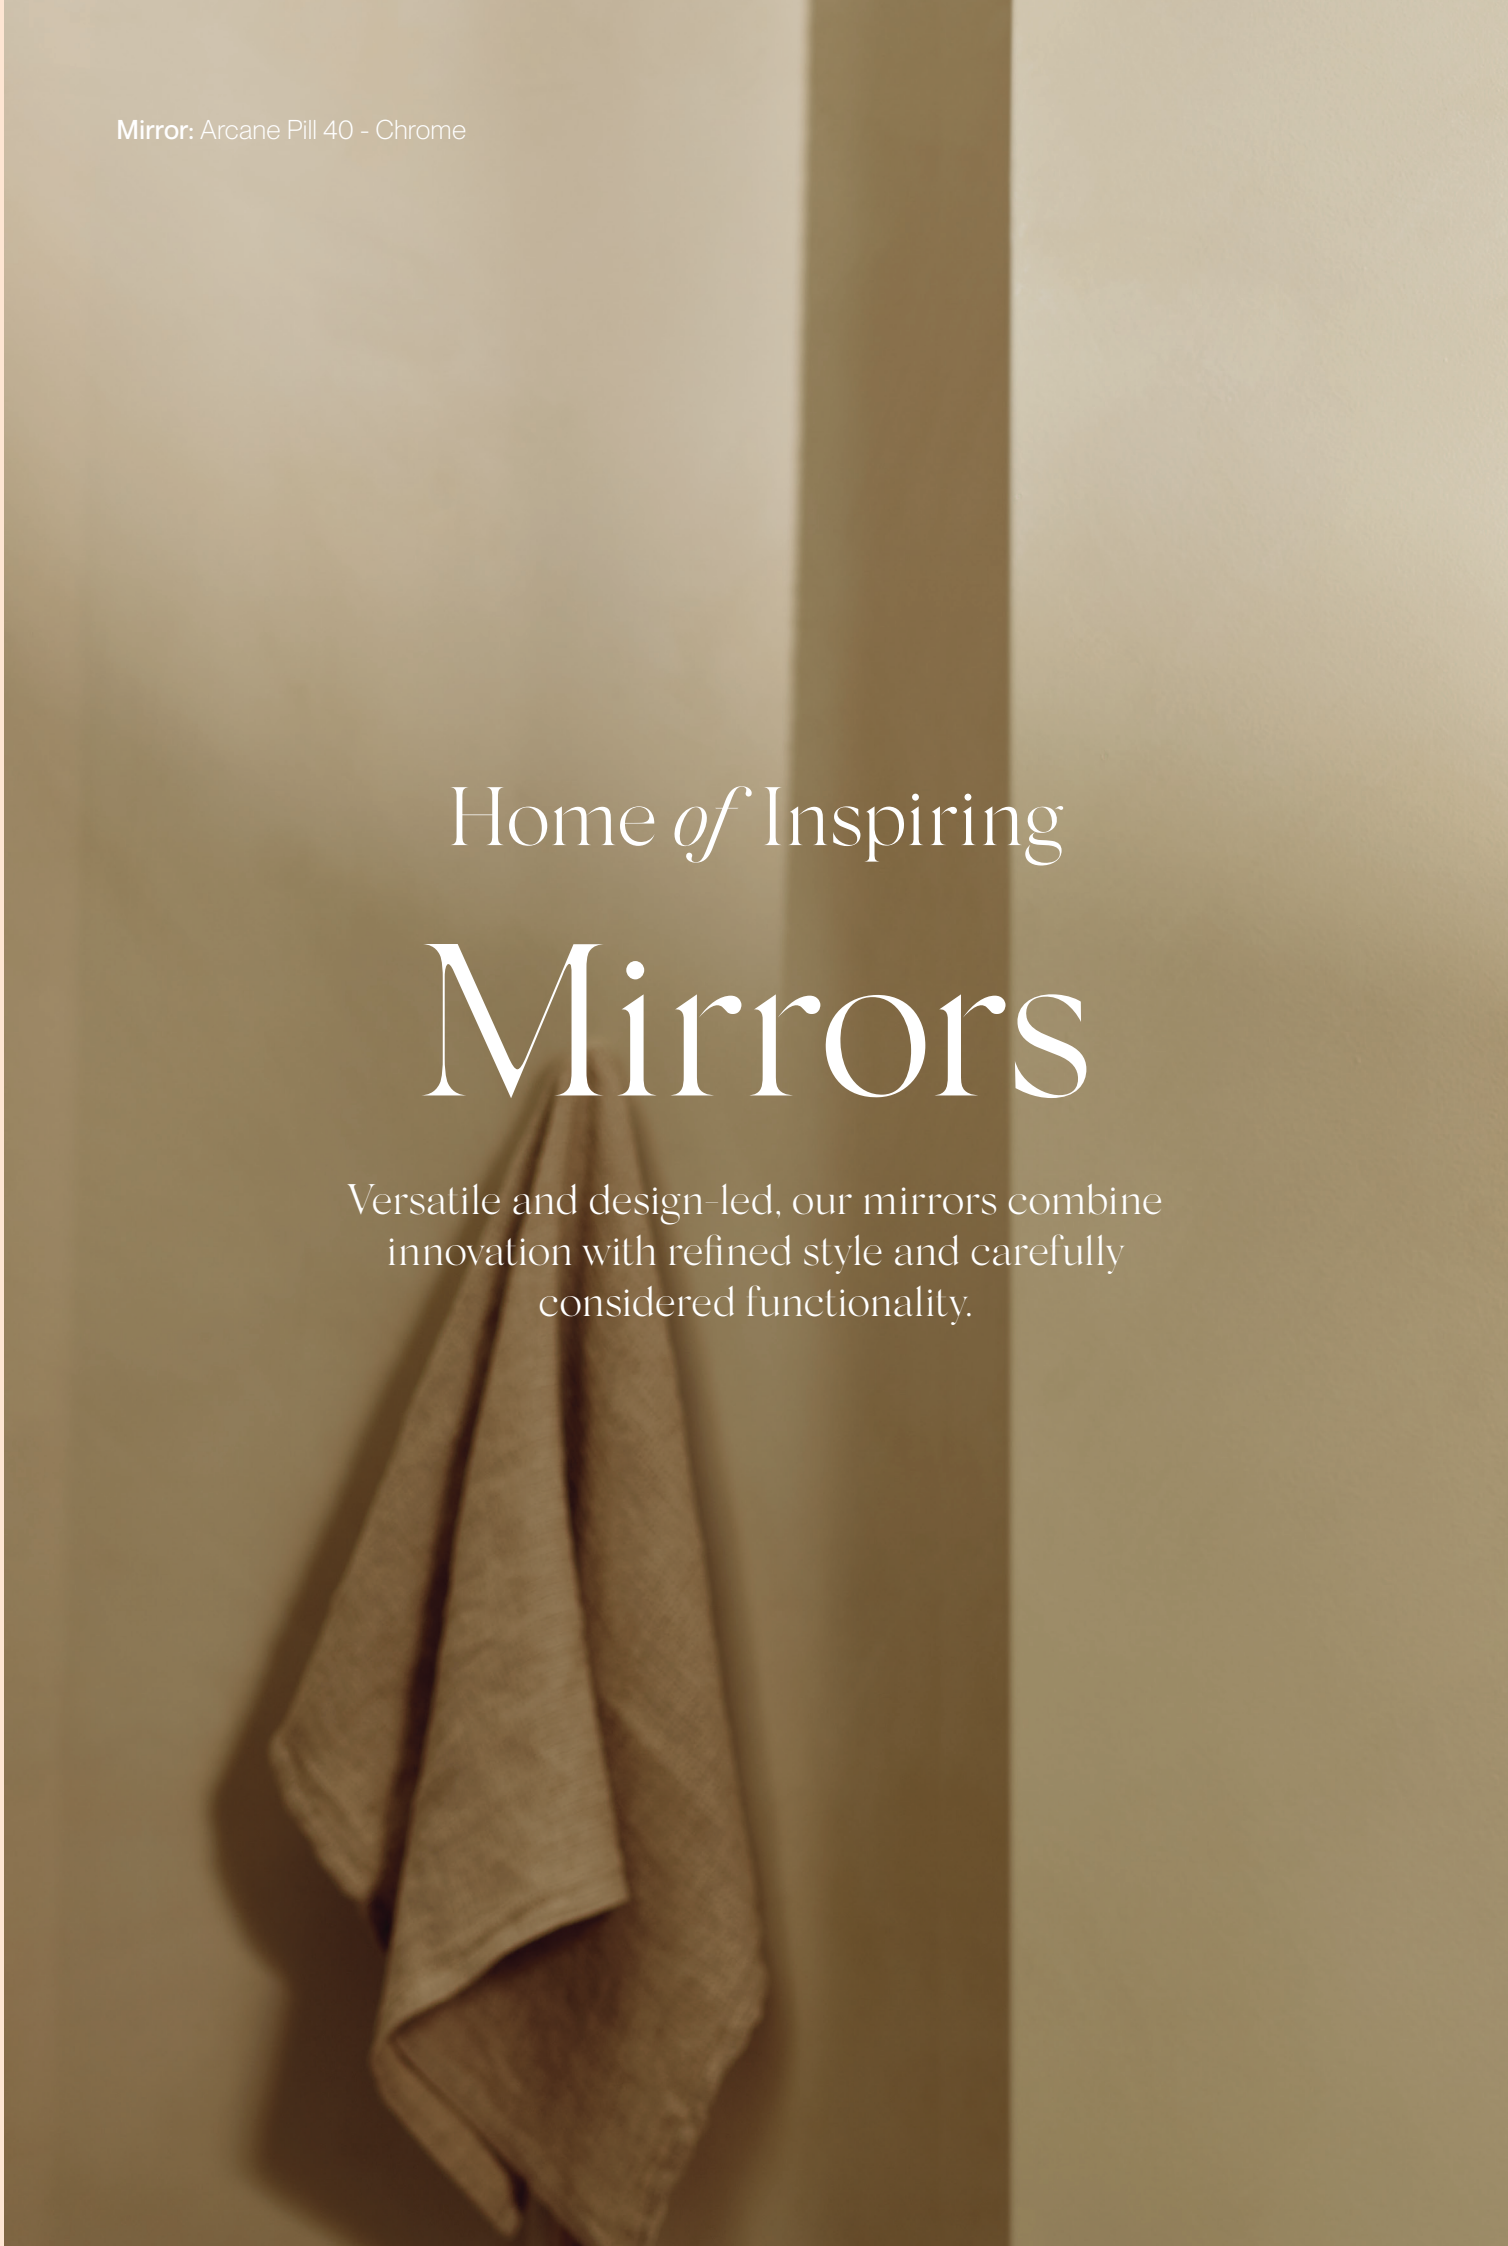

Cayla 80 | Cool White

Spotlight on

Heated Pads

hib. set the standard for heated mirrors and continues to lead the way in innovation.

Heated pads are an essential feature in modern mirrors and cabinets, gently warming the glass to stop condensation. hib. pioneered this technology and continues to evolve it, with larger pads and greater coverage keeping more of the mirror crystal clear, every time.

Mirror: Arcane Pill 40 - Chrome

Home *of* Inspiring Mirrors

Versatile and design-led, our mirrors combine innovation with refined style and carefully considered functionality.

Mirror & Cabinet Features

"When designing our mirrors and cabinets, we focus on lighting, storage and Clever Little Ideas. Every element is considered to make your bathroom functional, yet beautifully styled."

Alex Heaton

Alex Heaton
Product Designer at hib.

1.

Warm White
2700K

A subtle glow designed to create a cosy, inviting atmosphere. Perfect for relaxing, reflecting, and easing into your evening routine.

2.

Natural White
4000K

Daylight-accurate illumination that brings every colour and detail to life. Perfect for flawless makeup, precise grooming, or simply seeing your space clearly.

3.

Cool White
6000K

Bright, crisp light that refreshes and energises. Cool white is perfect for morning routines, bringing clarity, focus, and a fresh start to your day.

Clever Little Ideas

It's the little things that make the big impact. Our Clever Little Ideas are thoughtful touches across our collections that bring intelligent design, practical innovation, and distinctive details to every aspect of your bathroom.

1. Ghost Technology
The frosted light bars vanish when off, leaving a perfect mirror surface

2. Colour Temperature Changing LED's
Adjust the light to suit your mood with our colour-changing LED's.

3. Larger Heated Pads
Some mirrors feature larger heated pads, keeping more of the surface condensation-free

Ghost Technology

Ghost Technology is a Clever Little Idea that hides the mirror's light source within the glass.

When switched off, the mirror remains perfectly sleek, maintaining a clean, minimalist surface.

When illuminated, the hidden lighting comes to life, casting a beautifully even glow that enhances your bathroom space.

Charging Sockets

Integrated 2-pin and USB charging sockets are thoughtfully designed to make your daily routine effortless.

2-pin

Bevelled Mirrors

Demista Pads

Non-Illuminated Mirrors Accessory

An effective solution to an everyday problem. A Demista Pad can be easily fitted behind any mirror that doesn't already have a heated pad to deliver fast, efficient demisting in seconds. The technology is available as an optional extra on mirrors where indicated.

Other sizes available on request for contract orders. Demista Pads should be placed on the back of mirror's surface away from any electrical components that may be effected by the heat generated by the pad.

Frame with Concealed Cistern

Anchor Feet Brake

The feet brake system allows setting the necessary building height of the frame and then you only ensure its final position by tightening.

Quick Fixing To The Wall Using The Easy Lock System

The new construction solution enables mounting the frame to the wall in half the time.

Sliding Holder For Waste Elbow

It is possible to move the waste elbow horizontally and change its distance from the supporting frame to eight positions up to a total of 93mm.

Marking Pins For Easier Installation Of Plasterboard

The pins enable precise and quick marking of the position on the plasterboar d where the cutout will be made and ensure the correct placement of the WC system.

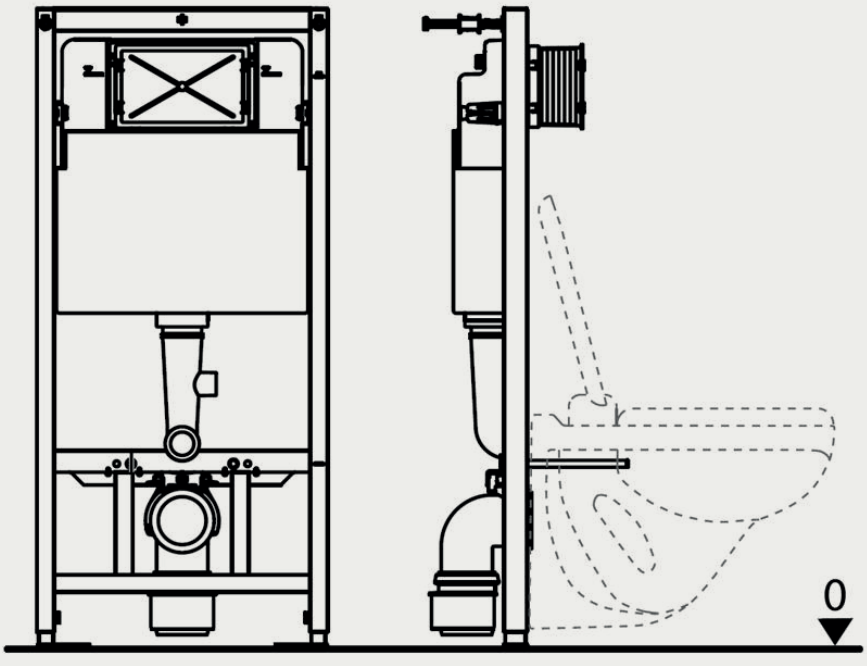

Water Supply Hose With O-Ring

The bayonet mechanism allows the connection of the hose and the inlet fill valve without tools. Everything can be tightened just by hand.

Extra Accessories Included In The Package

The packaging of every product contains a complete set of installation accessories for mounting the WC bowl, including anchoring materials and all necessary installation caps.

Juno

Flush Plates

- Circular button design
- Tilting mechanism allows easy use of cistern tablets/liquid
- Anti-fingerprint technology
- Compatible with our Vella Frame with Cistern (page 202)

Brassware: Indra Floorstanding - Brushed Brass

Home *of* Inspiring

Brassware

Brassware crafted with precision engineering and refined design for lasting performance and effortless style.

Atlas

Brassware

- Chrome and Matt Black (Electroplated)
- Brushed Brass, Gunmetal, and Brushed Bronze (PVD Coated)
- Brass body with zinc-alloy handles
- Ceramic cartridge and waterflow aerator
- Minimum operating pressure: 0.5 bar
- Mono and Tall feature a full Cold Start position (cold water as standard). This means the boiler is only engaged when needed, reducing energy and costs.
- Matching wastes available on page 250

Wastes/Bottle Traps

Brassware

- Chrome, White, or Black Overflow Rings are supplied with all basins that feature an overflow, as standard. The finish included is dependent on the style of basin
- Overflow Rings are suitable for ceramic basins, not suitable for mineral marble basins
- Minimalist Bottle Traps prevent odours from drainage system entering the bathroom
- Space Saving Basin Waste can be paired with our Veles ranges (page 148) to allow for maximum storage space whilst still providing a waste solution

Ventilation & Lighting

Effective ventilation that protects against condensation, damp and mould, while fitting discreetly into the bathroom space.

Brassware: Ø25cm Shower Head - Brushed Brass
Ventilation: Breeze - White

Cyclone

High Powered Inline Ceiling Mounted Ventilation

- High powered ventilation
- Ceiling mounted
- An ultra quiet level of 32dB
- Powerful 210m3/hr extraction rate
- Illuminated versions have an optional warm or cool white LED illumination
- Adjustable run on timer - Select from 2 upto 30 minutes of extraction after the main light is turned off
- Complete kit includes: fascia, inline fan, 3M flexible Ø10cm ducting, external fixed grille, and steel hose clamps
- IPX4 rated

Cyclone Illuminated - White | Warm White

White - Non Illuminated

£122

Elevate your bathroom lighting scheme by installing a discreet underlight with your furniture. Featuring a solid strip of COB LED with an optional motion sensor that activates when movement is detected, our underlights can offer a touch of detail and extravagance.

Simply cut to length and attach to your bathroom furniture for a modern, stylish look.

PIR motion sensors to use with LED underlighting are supplied as standard and can be used to operate the LED lighting. Alternatively, the lighting can be hardwired with a separate switch.

Lighting Regulations

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. hib. recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

Zone 1

refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2

covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone

has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

First Numeral

Protection against ingress of foreign bodies, e.g. tools, dust, fingers, etc.

1. Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).
2. Protected against solid objects over 12mm (e.g. jointed fingers).
3. Protected against solid objects over 2.5mm (tools).
4. Protected against solid objects over 1mm (small wires).
5. Protected against dust - limited ingress permitted (no harmful deposit).
6. Totally protected against dust.

Second Numeral

Protection against ingress of liquids.

1. Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect
2. Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.
3. Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.
4. Protection against splashing. Liquid splashed from any direction shall have no harmful effect.
5. Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.
6. Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.
7. Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.
8. Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
